Staircase kits delivered direct to you
We're part of the Designer Stairs.com group

The T20 Spacesaver Staircase from D'Opera, leading Italian staircase manufacturer. An innovative, patented design features triangular treads in powder coated steel set in a mirrored layout to produce a staircase which takes up about half the space of a regular format staircase.

The tread rise is adjustable from 210mm to 220mm (to UK Building Regulations) although it is designed to have a tread rise of up to 230mm. The tread going is a maximum of 240mm.

Define your T20 staircase kit step-by-step

Staircase and stairwell dimensions
(Measurements in mm)

1) Measure your stairwell dimensions
(Please, consider your minimum stairwell dimension is 1300X700mm with 320mm as maximum slab thickness "S")

The minimum stairwell opening size is 1300mm x 700mm!

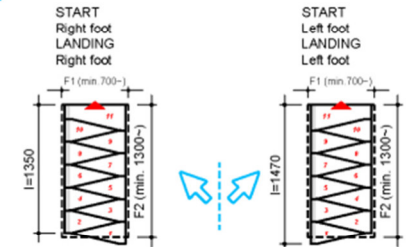

2) Define the kit which suits your case, using the "RISER TABLE" below, based on your total height (HT)

The "RISER TABLE" defines the riser height to be used during your staircase assembly, based on your total height "HT"

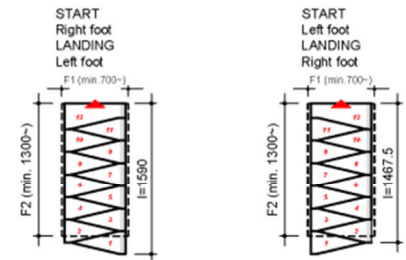

T20	Total Height	RISERS height				
		HT	210	215	220	225
	2520	12			2	9
